Federal Communications Commission  
445 12th Street, S.W.  
Washington, D.C. 20445

In re: MB Docket No. 04-160

Dear Ms. Dortch,

Our radio station, KKBS in Guymon, Oklahoma, plays an important role in not only our community, but western Oklahoma, and the Texas panhandle and Southwestern Kansas. They depend on us as an important informational and entertainment source. Our financial stability is dependent upon the support of local listeners and businesses. We must maintain that local base to provide the services needed for our multilingual population.

XM & Sirius entered the satellite radio under the guise of providing a national program service. Their move to provide local weather and traffic to 21 markets is a blatant violation of their stated purpose with the Commission. How much further will they go in providing services throughout the country even in to markets our size, if they are not stopped now? The heart of our existence is our local community. These national satellite companies have not interest whatsoever in serving the true needs of local communities.

We strongly support the NAB petition requesting the Commission deny these companies the opportunity to provide local programming through their national service.

Thank you.

Sincerely,

A handwritten signature in blue ink that reads "Marsha Strong". The signature is written in a cursive, flowing style.
